Principal's Report

The term is off to a great start with students focussed, organised and engaged in their lessons.

On Monday, 18th July 2016 staff took part in Mandatory training regarding Anaphylaxis and CPR. Additional training on iPads was also offered.

7S is the trial class for iPads this term. It was a pleasure to visit their classroom this week and to see the classes working on different activities using their iPads. This is the first week of the trial and staff spent many hours preparing engaging units of work for the class. It is wonderful to see the students embracing technology in their learning. I look forward to visiting more classrooms in the future.

If our trial continues successfully, it is hoped other Year 7 classes will also use iPads in their learning. All other Year 7 students and their parents will soon be invited to information evenings regarding the iPad program.

Mrs Russell and Mrs Mehic are coordinating the implementation of this technology and I extend my thanks to them for their efforts in training staff on the devices.
